Office of the IG
Gordon Heddel
400 Army Navy Drive
Arlington, VA 22202

Mr. Heddel,

Enclosed is a partial disclosure of my concerns. When your enemy watches our country, at control levels in DOD, sweep treason, manipulation of the energy policy to the detriment of member nations of the G20 and their families under the carpet. Not to mention a profiteer element in the pentagon and capitol hill that look at dead marines and soldiers as the cost of doing business. What do you think our enemy is getting ready to do to our country next?

The misconduct of your people in the hotline or your investigators at DCIS and others in DOD will not be tolerated by the American people.

I look forward to speaking with someone further that you trust to be above reproach. When the widows and orphans of marines, soldiers, and civilian casualties of war, learn the truth of some situations detailed in my enclosed documents we will find out who they want to hold accountable. Further background is in your own computers and the Texas Rangers in Austin Texas.

Sincerely
Robert Yount
